1. COMPANY PROFILE

About Us

NZT Projects centralizes its knowledge and experience in pioneering and refining the workplace. At NZT Projects, we specialize in visual management such as signage, labeling, etc., and 5S standards including custom made products. Our aim is to provide high quality service, designed as per clients' requirements.

Within NZT Projects, we have created a division - NZT Scientific Solutions.

NZT Scientific Solutions has directed their experience in ameliorating and effectuating growth within the laboratory industry. We specialize in all laboratory consumables, glassware, plasticware, lab chemicals, laboratory solutions, re-agents, and medical supplies. Additionally, we supply a wide range of chemicals in various grades. These include AR, CP, pharmaceutical and food grade. We also offer a quality safety wear range to our clients suitable for their industries.

Our objective is to assist structuring a clean, organized, and efficient working environment in the laboratory and FMCG industry, supplying of goods and materials that are required in these various departments with fair and competitive pricing. Moreover, we strive to build and sustain close relationships with each of our clients through the continuous understanding of each client's current and future needs.

NZT Projects consistently strives to exceed clients' expectations by providing a superior standard of service delivery and maintaining communication by keeping our clients regularly updated with the processing of their orders.

Vision

Our vision is centered around promoting and elevating effective progress within working environments, through our belief that to enhance productivity, one must empower workers with knowledge in the use of our laboratory products and 5S Standards services, proving that one can accomplish more by doing less.

Mission

Our goal is to become a significant supplier in the FMCG & laboratory industry by being reliable, trustworthy, and a pro-active supplier and service provider by offering cost effective market pricing. Our pledge is to establish lasting relationships with our customers through satisfactory communication and quality service delivery.

2. LABORATORY CHEMICALS

We offer various laboratory chemicals that coincide with the requirements of our customers. These include but is not limited to:

- Analytical reagents
- Indicators
- Conductivity standard
- Chemical solutions

ANALYTICAL RESEARCH GRADE (AR):

AR grade chemicals are high purity reagents that are best suited for specialist analytical testing which requires a high level of accuracy.

These ultra-pure chemicals are ideal for providing consistent results and are commonly used for molecular and biotechnical applications.

CHEMICALLY PURE GRADE (CP):

CP grade products are impurity-free chemicals appropriate for general application.

It is detectable by chemical analysis and is used in commerce sectors.

TECHNICAL GRADE

These products are suitable for general application in the industrial sector.

FOOD GRADE

These chemicals are generally deemed suitable for human consumption.

Notably, lab grade is not necessarily safe for human consumption but rather suitable for lab testing.

3. GLASSWARE

Glass beakers

Glass Measuring cylinders

Glass Erlenmeyer flasks

Glass round bottom flask

Glass flat bottom flask

Glass separating funnel

Glass funnel

Glass petri dish

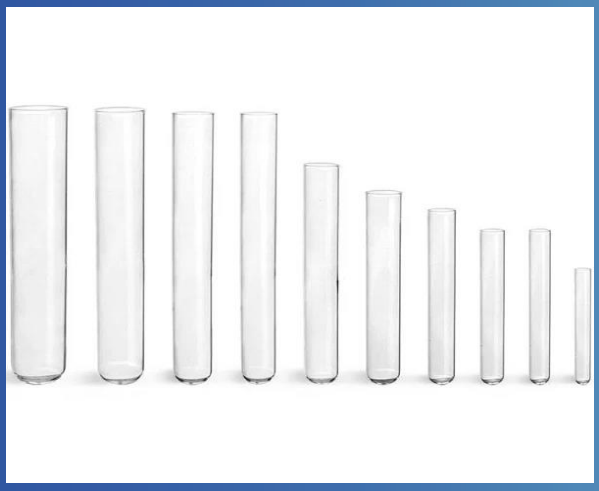

Glass vials

3. GLASSWARE

Reagent Bottles Autoclavable

Glass test tubes

Cover Slips

Microscope slides

4. PLASTIC WARE

Plastic beakers

Measuring cylinders

Plastic measuring jugs

Microcentrifuge tubes

Centrifuge tubes

Test tube racks

Pasteur Pipettes

Plastic funnel

Petri Dish

4. PLASTIC WARE

Specimen Jars

Plastic pill vials

Plastic wash bottles

Aspirator bottles (with tap)

Cryo Boxes

Pipette tip boxes

Pipette tips

Weighing boats

5. GENERAL

Rapid test kits

pH Indicators

Parafilm 100mm x 38m

Autoclave tape

Autoclave bags

Zip lock bags

5. GENERAL

Cotton swab sterile

Digital Thermometers

Gas Canisters

Waste Disposal Bags

6. MEDICAL DISPOSABLES

Nitrile powder free gloves

Latex powder free gloves

Mob caps

Beard nets

Shoe covers

Disposable coverall

Disposable gowns

Surgical masks

Plastic aprons

6. MEDICAL DISPOSABLES

Arm covers

Syringes

Linen savers

Hypodermic needles

Alcohol swabs

Transport swabs

Sharp containers and waste disposal bags

Lab coats

6. MEDICAL DISPOSABLES

Tongue depressors

BP Meters

First Aid kits

7. SANITARY PRODUCTS

Twinsaver Jumbo roll

Paper hand towels

Micro fibre roll

Twinsaver toilet paper

Microfiber cloth

Alcohol wipes

Twinsaver control hand towel

Hand Sanitiser

Cleaning detergents

8. LABORATORY EQUIPMENT

Magnetic stirrers Bars

Magnetic Hot Plate stirrer

Overhead stirrers

Shakers

Vortex mixers

Centrifuges

Ultrasonic baths

Scales

8. LABORATORY EQUIPMENT

Digital viscometers

Density cups

Liquid Handling:

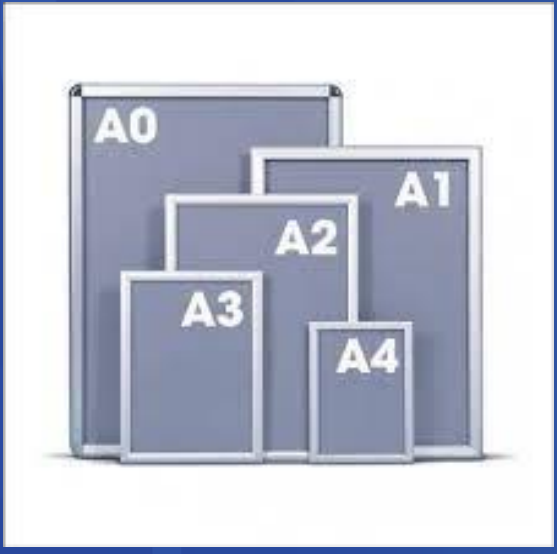

Bottle top dispenser

Pipette

9. VISUAL MANAGEMENT

Aluminium snapper frames

Duplicate carbon books (custom)

Banners

Magnetic signage

9. VISUAL MANAGEMENT

Whiteboards (incl magnetic)

Magnetic labels

Gloss and matte posters

Vinyl labels and stickers

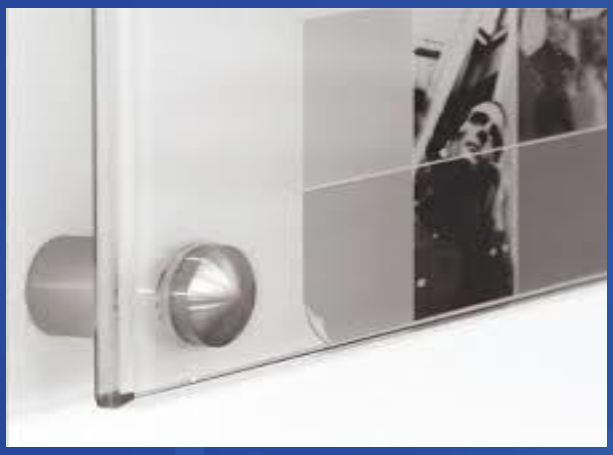

Demarcation tape (assorted)

9. VISUAL MANAGEMENT

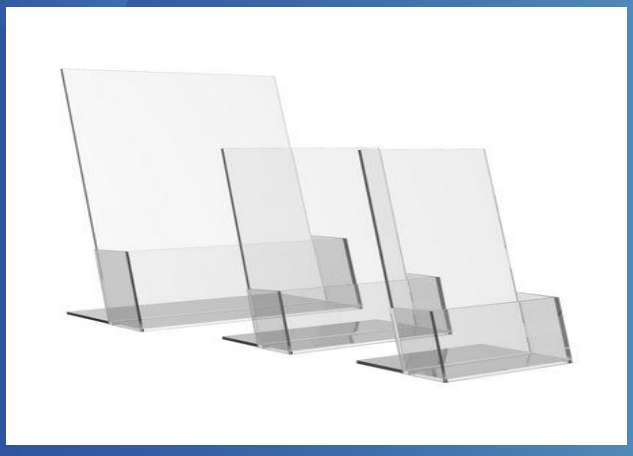

→ PERSPEX BOARDS

Perspex is versatile in its use allowing a multitude of applications including custom made signage, boards, visual communication, glazing and design. It is UV resistant making it durable and it has a comprehensive range of colours and finishes. It is suitable for white board markers.

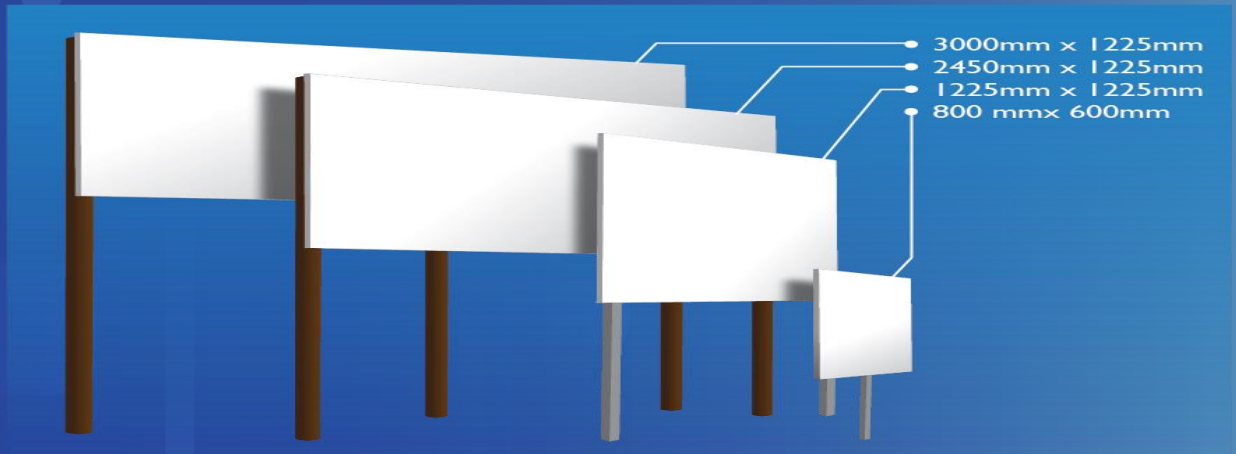

9. VISUAL MANAGEMENT

→ CHROMADEK BOARDS

Chromadek is a pre-painted, water-resistant, galvanized metal sheet that is primarily used for outdoor signage. Given its material, it has a longer lifespan. It may be used for custom cut-outs or a juncture of sheets to create rigid signboards.

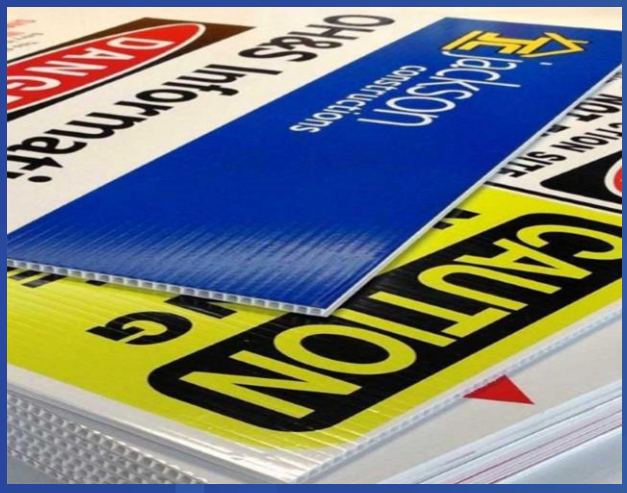

9. VISUAL MANAGEMENT

→ CORREX BOARDS

Correx printing is suitable for short-term indoor and outdoor displays. It is great for advertising and is easy to manage due to it being lightweight and has easy installation. Frequent uses of correx printing include directional signs, construction signage and business signage.

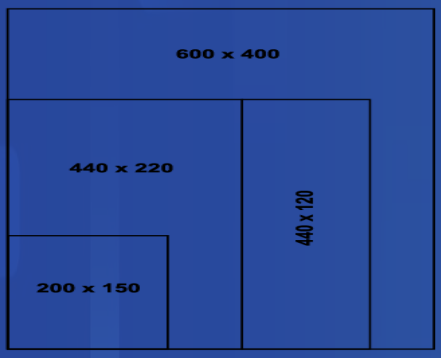

9. VISUAL MANAGEMENT

→ ABS BOARDS

ABS signage are manufactured from Acrylonitrile Butadiene Styrene. This method of printing is a favoured choice due to its low production costs and its ability to meet any design and/or application requirements. ABS's features include being lightweight, scratch resistant, shock-absorbent, moisture-absorbent, recyclable and easy to process and print on. It is frequently used as informational signs and indoor and outdoor signage.

10. SAFETY WEAR

→ DROMEX BRAND

For safety wear, we offer the high quality Dromex brand. To enquire further, please send us an email for their complete catalogue.

DW-CONTI-RTXX-S

Description

Dromex® DW-CONTI-RT-S high visibility jacket and pants suit is a strong, lightweight and durable work garment designed to provide the user with protection against mechanical hazards such as abrasion.

The DW-CONTI-RT-S suit is a blend of 80% polyester and 20% cotton which is an affordable alternative to 100% cotton with the benefits of sturdiness and colour fastness of polyester and comfort of the cotton.

This garment is available in 8 different colours, royal blue, black, emerald-green, grey, khaki, navy blue, orange and red which consists of the following:

Jacket features:

- Collared jacket.
- Concealed DRO (Dromex®) type 5 aluminium zip closure.
- 2 Open laid on waist pockets and 1 left breast pocket with a V flap, concealed metal press stud closure with pen division and a Dromex® sidewinder label.
- Stress points are re-enforced with bar tacks for added durability.
- High visibility lime green silver reflective tape on arms for enhanced visibility when working in poor lighting environments.

Pants features:

- A concealed DRO (Dromex®) type 5 aluminium zip with metal button closure at waist.
- Two front laid on pockets and a rear open pocket with a Dromex® sidewinder label.
- Inleg seams are triple needle topstitched for added durability and stress points are bar tacked.
- Inner elasticated waist for optimum fit and flexibility with 7 belt loops.
- High visibility lime green silver reflective tape on legs for enhanced visibility when working in poor lighting environments.

This garment is suitable for use in general work environments such as logistics, warehousing, construction, workshops, maintenance and repairs, janitorial, gardening and general-purpose applications.

Should there be visible damage such as tears, it is recommended to replace the garment immediately.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.
The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.
These polycotton garments are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.
Not for use against heat and flame hazards.
The information contained herein is intended to assist the wearer in the selection of personal protective equipment.
Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use.
This garment should be thoroughly inspected before use to ensure no damage is present.

Specifications

Style:	Long sleeve jacket and pants suit.
Fabric composition:	80% Polyester 20% Cotton.
Mass:	200gsm.
Reflective:	50mm Lime with 19mm silver reflective tape.
